

KUBRI ENGINEERED SOLUTIONS

BRIDGING THE GAP BETWEEN
GLOBAL INNOVATION
AND AUSTRALIAN NEEDS

ABOUT KES

At Kubri Engineered Solutions, we bring the world's best engineering technologies to Australia, ensuring every project benefits from cutting-edge innovation and exceptional quality. Our extensive industry experience, combined with exclusive partnerships with premium brands such as Maurer, Panacor, and Eco EarthTec, enables us to deliver reliable and forward-thinking solutions.

We understand the unique challenges of the Australian market and are dedicated to providing tailored solutions that meet local standards while exceeding quality expectations. When you choose Kubri, you're choosing a partner committed to precision, excellence, and enduring success.

OUR FOUNDER

**LOAI
SHOKRY**
Founder

Loai Shokry is a distinguished engineer with a wealth of experience managing multi-billion dollar infrastructure projects in Australia and globally. His extensive portfolio includes a wide range of projects, from roads, railways, and bridges to complex utility infrastructures and heavy civil structures, all of which he has overseen from inception to successful completion.

Beyond project management, Loai excels in strategic planning, budgeting, risk management, and client relationship management, making him an invaluable asset to every project. He holds an Honors Bachelor's Degree in Civil Engineering and is a Chartered Professional Engineer, recognized by multiple professional engineering institutions in Australia.

OUR TECHNOLOGY PARTNERS

MAURER

Maurer is a leading global provider of structural protection systems, specializing in bridge bearings, expansion joints, seismic protection, and vibration control. With decades of experience, Maurer's technologies are integral to the safety and longevity of infrastructures worldwide.

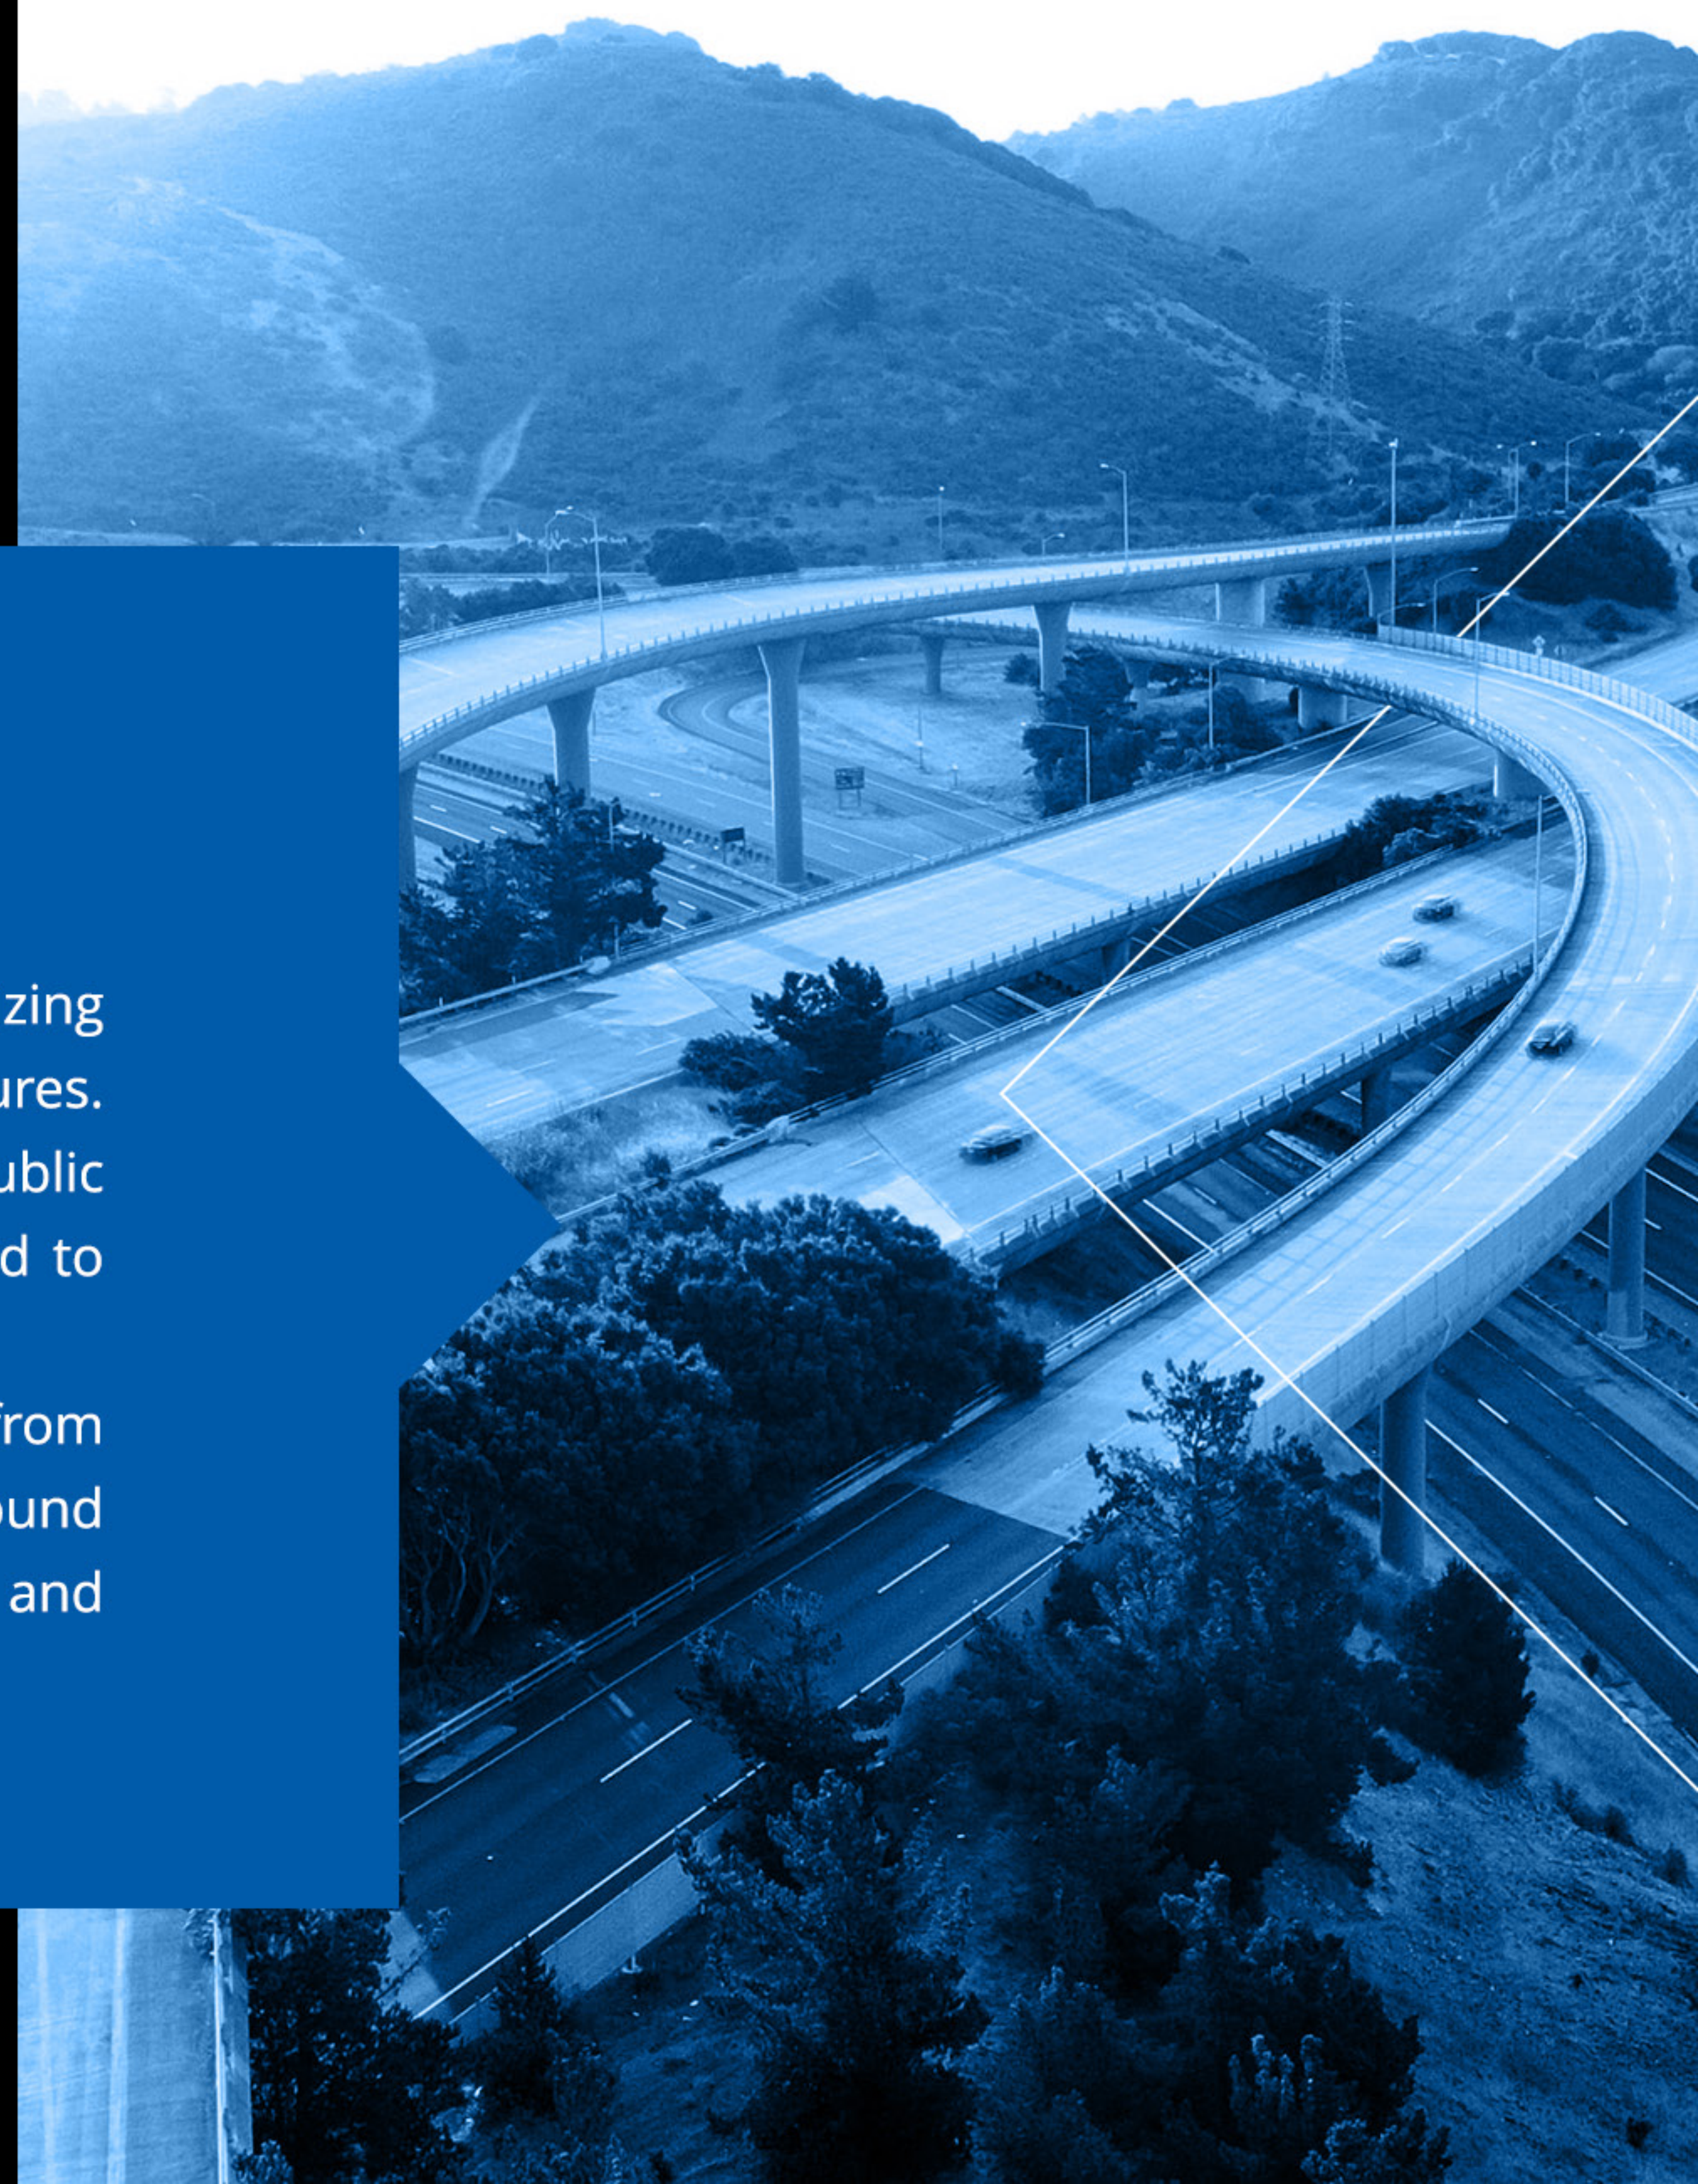

Maurer products have been utilized in some of Australia's most critical infrastructure projects, ensuring that bridges, buildings, and other structures are equipped to withstand both everyday stress and extraordinary events.

Panacor is a leading provider of noise barriers, specializing in acoustic protection systems for various infrastructures. With extensive experience in civil construction and public works, Panacor offers cutting-edge solutions designed to address any acoustic challenges.

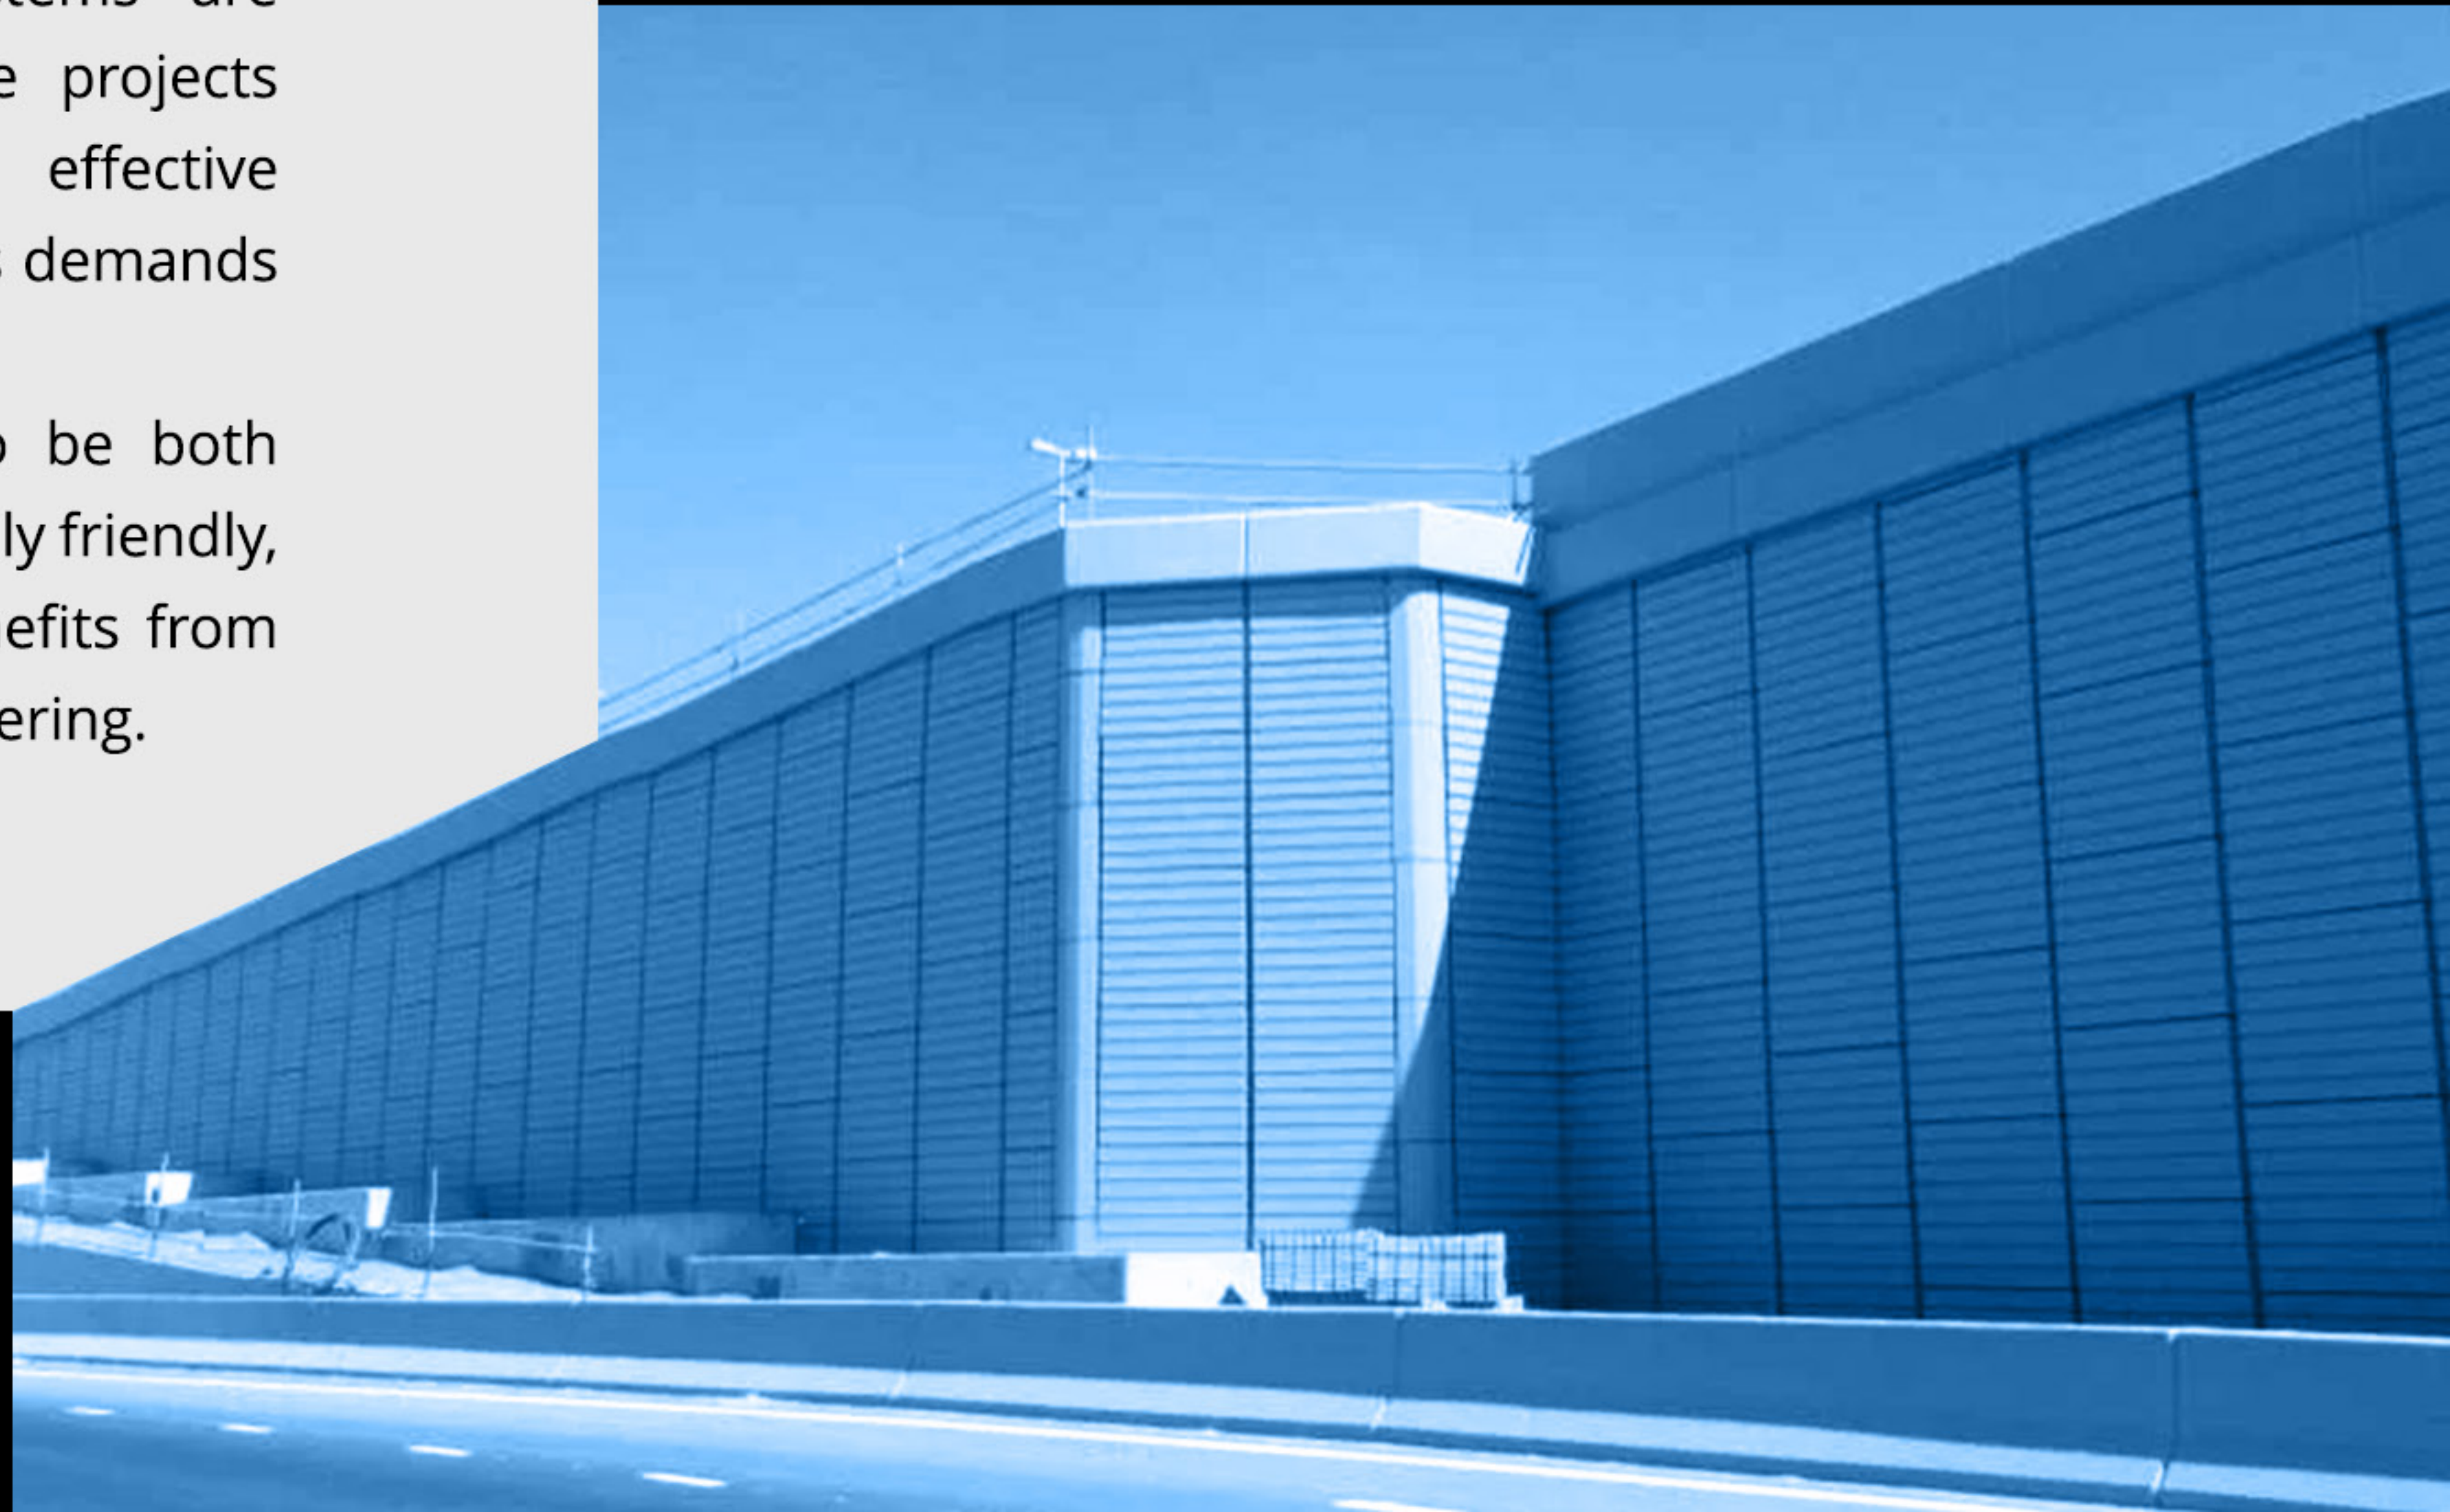

Their high-efficiency soundproofing panels, made from premium quality materials, ensure exceptional sound insulation and are ideal for mitigating noise in urban and residential areas.

ECO EarthTec specializes in Reinforced Soil Structure (RSS) Wall Systems, offering innovative solutions that provide strength, durability, & environmental sustainability. ECO EarthTec's RSS Wall Systems are trusted in major infrastructure projects across Australia, providing effective solutions that meet the rigorous demands of modern construction.

Their systems are designed to be both cost-effective and environmentally friendly, ensuring that every project benefits from ECO EarthTec's advanced engineering.

INDUSTRIES AND EXPERTISE

At Kubri Engineered Solutions, we pride ourselves on our diverse range of expertise and industry-leading capabilities. Our offerings include:

**Structural
Devices**

**Structural
Protection
Systems**

**RSS
Walls**

**Noise
Barriers**

WHY CHOOSE US?

Proven Expertise

Our team brings decades of experience in infrastructure and engineering projects, ensuring compatibility, quality and delivery every time in every product we supply.

Premium Brands

We exclusively represent top-tier global brands like Maurer, Panacor and Eco EarthTec, known for their innovation and reliability.

Local Expertise

With deep knowledge of the Australian market, we tailor our solutions to meet local demands and standards.

Comprehensive After-Sales Service

We provide ongoing support and service to ensure your projects continue to perform at their best.

Trusted by Industry Leaders

Our partnerships with globally recognized brands underscore our commitment to excellence and reliability.
